"Seeing Forest Products in Forest Stands"
Forest Landowner Workshop at Haywood Community College
Clyde, NC, Thursday, April 13th, 2017

Come Join Us for a Walk in the Forest to See What Forest Products Are Potentially in a Landowner's Forest	

Target Audience:	Forest landowners, loggers, foresters, timber buyers, log buyers, processing operations
Cost:	No cost to attend
Format:	Discussions about forest stands, forest management, harvesting options, and forest products suitable to specific forest stand types
Lunch:	Can purchase at registration or bring your own
Time:	Registration at 8 to 9 am, start at 9 am, lunch at noon, complete at 4 pm
Educational Credits:	We are seeking SAF educational credits for foresters
Location Address:	Haywood Community College, 185 Freelander Drive, Clyde, NC
Registration:	1-On line at EventBrite.com-http://forestry.ces.ncsu.edu/events 2-Mail at Kelley McCarter, NCSU Forestry Extension, Campus Box 8003, Raleigh, NC 27695 3-Phone Kelley McCarter at 919-515-9563

Highlights-

- Start at 9 am, lunch at noon, end at 4 pm
- Morning and afternoon one and half hour walk in the woods touring local forests stands
- Discussions with industry professional foresters and loggers, and other landowners
- Looking at forest stands and identification of potential forest products that the stands would produce-products, markets and harvesting options
- Morning and afternoon demonstration of a portable sawmill and firewood processor
- Discussions of measuring a log for volume, lumber quality and insights into matching forest stand management to potential markets
- Special markets for forest products like burls, rustic furniture, thick lumber slabs and rhododendron
