Profitable Operation of Small Sawmills Workshop

Thursday, June 2nd, 2016

Wood Education & Resource Center, Princeton, West Virginia

SAF Educational Credits Will Be Available

Sponsored by:

Wood Products Extension

The work upon which this workshop is based was funded in whole or in part through a grant awarded by the Wood Education and Resource Center, Northeastern Area State and Private Forestry, U.S. Forest Service.

Small Sawmill Workshop—June 2nd, 2016 Princeton, WV

Who Can Benefit From Attending this Small Sawmill, Lumber Drying and Value-Added Workshop?

- Small Sawmill Operators
- Lumber Drying Operations
- Value-Added Shops-Cabinets, Furniture, Millwork

Workshop Description

This workshop focuses on small sawmills and lumber drying operations with gas, diesel engines and electric power. Equipment vendors are invited to set up exhibits and offer demonstrations. Classroom lectures cover equipment currently available for small sawmill and lumber drying operations, how to saw for improving hardwood lumber grades, basics of the hardwood lumber grading system, lumber drying basics, heating a kiln with a stick wood water stove, profitable business and marketing strategies, and how to make value-added products beyond green and kiln dried lumber. Business topics will also be covered.

Lunch is Provided in Registration Fee!

Workshop Location-WERC, Princeton, West Virginia at Exit #14 on I-77

Multiple hotels are located in Princeton at Exit 9 at US 460 and I-77

This workshop focuses on these areas:

- Small sawmills and shops powered with diesel and gas engines, and single phase power
- How to saw for grade and an introduction to the hardwood lumber grading system
- How to properly dry lumber, including solar dry kilns
- How to set up a business that can make value-added products like cabinets, furniture and millwork
- How to make money with a small sawmill operation
- Preventing stain and other forms of degrade that lose money
- Reports from successful small sawmill operators

Equipment Vendors Are Invited to Set Up Exhibits and Offer Demos

Sponsored by:

- * NCSU Wood Products Extension,
- * Wood Education and Resource Center
- * Independent Sawmill & Woodlot Magazine

Business Opportunities Exist for Operators Who Are Creative and Committed to their Businesses Success

Small sawmill operations can be successful when producing sufficient volume with quality sawing. All species are needed to make quality value added wood products like cabinets, furniture, millwork and construction lumber.
